Agency Website

I have redesign the whole website.

Reasons to Redesign.

- It was old fashion.
- Speed not good.
- It was just a WordPress Theme.

Things I have done.

- I have developed the complete website from the scratch.
- I have used gsap for quality animations.
- I focused on the minimal and modern.

CSS Library

I have developed own CSS Library. which helps to easily customize things and lighten the website.

Features.

- Grid System
- Buttons
- List styling
- Carousels
- Aligning
- Spacing
